

UNIVERSAL PROGRAMMER

ESA IUP-UXP is an advanced version of our earlier model ESA IUP-XP, which works through a PC's parallel port & USB port. It features a 48 pin universal pin driver and an expandable TTL pin driver. It supports over 7000 devices including PAL, GAL, CEPAL, EPLD, PEEL, MAX, MACH, PLSI, EPROM, MPU /MCU etc. ESA IUPUXP works in various operating systems, Windows 9x/NT/2000 and XP.
